

# RAINS CHEER THE SOUTH LAND

Wealth-Producing Downpour Is Universal Along Entire Coast of Pacific

EVERY SECTION OF SOUTH MOISTENED BY SHOWERS

Storm To Continue—Citrus Groves Benefitted—Everybody Extremely Happy

LOS ANGELES, Jan. 16.—Almost an inch of rain for the present storm fell here, and more is predicted.

A freak hailstorm visited Los Angeles shortly before midnight last night in the renewal of a heavy rain. For ten minutes the heavy ice beads, driven with considerable velocity by the wind, rattled against window panes and beat a tattoo on the roofs of houses. The hailstorm visited Pasadena and several towns adjacent to Los Angeles. There was no damage.

Storm signals are out all along the coast. The entire section of Southern California has been drenched, according to the weather report. The rain was welcomed by all classes and means wealth to the country. Citrus fruit growers believe it will help the citrus situation.

Telegraph and telephone wires are prostrated along the coast. Many trains have been delayed by the rains. A severe storm is reported at sea. United States Weather Forecaster Carpenter says the indications are that considerably more rain will fall within the next thirty-six hours. He says the low area over the northwest is moving in a southerly and easterly direction, which insures continued showers.

## RAIN STORMS PREVAIL

**ALONG PACIFIC COAST**  
SAN FRANCISCO, Jan. 16.—Rain storms are raging generally on the Pacific Coast. San Luis Obispo had the severest storm. Heavy rain and hail here today. The latest figures on the rainfall give San Francisco .46 of an inch, Los Angeles 1.02, San Diego .22, Sacramento .32, Fresno .52.

**Santa Barbara**  
SANTA BARBARA, Jan. 16.—The precipitation for the storm of yesterday and last night was two and a quarter inches. There was a terrific downpour last night. More rain is forecasted.

**Heavy Rain at San Bernardino**  
SAN BERNARDINO, Jan. 16.—This section experienced the heaviest rain of the season. The precipitation for the storm was .70 of an inch; for the season 3.27 inches. Heavy snows have fallen in the mountains. The orange growers report that the damaged fruit is beginning to fall from the trees, which is one of the benefits of the rain.

**Redondo Beach**  
REDONDO BEACH, Jan. 16.—The rainfall here for the present storm is .41 of an inch; for the season 1.94 inches.

**Ontario**  
ONTARIO, Jan. 16.—The rainfall here was 1.10 inches; for the season, 2.55. Heavy snows prevail in the mountains and ranchers are jubilant throughout the valley.

## UNION PACIFIC TO LEASE FROM THE S.P.

Will Take Over Central Pacific by Lease to Meet Demands of Supreme Court

NEW YORK, Jan. 16.—It was learned from an authoritative source in New York yesterday that the Union Pacific plans to take over the Central Pacific by lease from the Southern Pacific company and in this way meet the requirements imposed by the supreme court in its decree ordering the dissolution of the Union and Southern Pacific.

Just how the Union Pacific is to assume the Central's obligations to the Southern Pacific has not been determined, but it is supposed that the transfer of the lease, if consummated, will involve the transfer of some of the \$126,000,000 Southern Pacific stock now owned by the Union Pacific.

Milk in Mustard.  
If milk is used instead of water when mixing mustard for the table, it will look fresh for several days.

# New York Cooks Demand Bigger Wage; Less Hours

NEW YORK, Jan. 16.—Following an exciting meeting at midnight, Elizabeth Gurley Flynn, an I. W. W. leader, announced today that the cooks' union had voted overwhelmingly to call out every worker in all branches of the hotel service. The strike will be effective immediately.

It is claimed that ten thousand workers are ready to strike. They demand better conditions, sanitary quarters, uniform wages and a ten-hour day.

## Bulletins of News

Hot from the wire up to 3:30 p. m.

### THE WEATHER

Rain tonight and Friday; moderate southerly winds high along the coast.

No Improvement in Mrs. A. K. Smiley's Condition  
REDLANDS, Jan. 16.—Physicians report no change in the condition of Mrs. A. K. Smiley, who is dangerously ill at Smiley Heights.

Telephone Lineman Frozen to Death Near Redding  
REDDING, Cal., Jan. 16.—Slowly freezing to death in the snow five miles from Redding while a searching party combed the surrounding country for him, Alex Young, a telephone lineman, perished. His body was found later by searchers.

No Lower Berths for R. R. Employees Traveling on Passes  
CHICAGO, Jan. 16.—Railroads operating out of Chicago have given orders that no lower berths will be reserved for employees traveling on passes.

English Peer Today Weds Pretty Theater Girl  
LONDON, Jan. 16.—Lord Victor Paget, brother of the marquis of Anglesey, is to be married today to Miss Olive May, the pretty gaiety London theater girl. Only immediate relatives of the couple will attend the ceremony.

Women To Be Admitted to Royal Geographical Society  
LONDON, Jan. 16.—Women won another step yesterday toward equality with men when the Royal Geographical Society by a vote of 130 to 51 adopted a motion by Lord Curzon to admit them as fellows on the same terms as men.

Edward Mylius To Be Deported on First Steamer  
WASHINGTON, Jan. 16.—Secretary of Commerce and Labor Nagel has decided that Edward Mylius, the English editor once jailed on a charge of libeling King Edward, shall be deported on the first steamer.

Berkeley Girl Died From Smallpox Today  
BERKELEY, Cal., Jan. 16.—Miss Ameer Lucas, aged sixteen, died today of smallpox. It is claimed that only five cases remain in Berkeley, but the schools will remain closed as a precaution.

SETS UP RIVAL SHOP TO JUSTICE J. B. COX  
SAN BERNARDINO, Jan. 16.—The "catches 'em coming and goes" letter, written by some person in San Bernardino to Mark Keppel at Los Angeles, brought the "Marrying Parson," Rev. Mark B. Shaw, more business today. Shaw is also an undertaker. Thomas Hollowell, a Los Angeles "Examiner" linotype operator, set up a letter from Rev. Mr. Shaw last night, in which Shaw wrote he had married 600 couples in this county, and only four pairs thus united landed on the divorce rocks.

"That record looked good to me," said Hollowell to Rev. Shaw as he walked into the parlor with his blushing bride, Miss Beattie Emley, also of Los Angeles. "We intended to go to Santa Ana to be married, but after reading your letter I concluded to come out here."

Indications are that the celery crop of Orange county did not receive such a severe set-back from the recent frost as was at first thought. G. W. Moore, manager of the Celery Growers' Association, stated yesterday afternoon that the product was turning out far better than was at first expected. Mr. Moore said that about two-thirds of the crop remained to be shipped, and that the prices being received were from 30 to 50 cents a dozen.

Charles Johnson, secretary of the Celery Growers' Association, stated in an interview yesterday afternoon, that while none of the crop was killed by the frost, yet the outside stems

were so badly frozen as to necessitate trimming them off, thereby making the bunches smaller, and taking more bunches to fill a crate.

Mr. Johnson says that if the weather is favorable from now on, the celery will recuperate swiftly and will sprout anew.

There has been no celery shipped from the county for some time. The celery association shipped thirteen cases Tuesday night, consigned to the Eastern markets. That was the first shipment since the freeze.

# RIISING WATERS YET IMPERIL CITIES

Evansville Threatened With Invasion of Light and Power Plants By Water

TOWNS WORRIED BY RAIN FALL AND RISE OF RIVER

Rain Halts Receding of River Waters at Cincinnati; Char-ity Is Busy

EVANSVILLE, Jan. 16.—There was no relief today in flood conditions about the city. Ten families on an average are living in every house in the farming districts. They are unable to get food. Barges are enroute to Calhoun where the suffering is the keenest, bearing provisions.

Delaware, Scuffletton and Yankertown put in a bad night with the rain falling and the river rising. Millions of property loss is predicted. It is feared the flood will demolish the light and water plants. The water is rising rapidly. Downtown districts are threatened and many are moving to higher ground.

RAINS HALT FALL OF RIVER; 10,000 SUFFERERS DAILY FED  
CINCINNATI, Jan. 16.—The heavy rains have caused the fall of the river to cease, and the river is stationary today with prospects that it will soon recede. The flood relief committee is daily feeding ten thousand sufferers.

# COL. GOETHALS MAY BE WILSON CHOICE

Democratic Senate Would Ratify Nomination as Governor of Panama Zone

TRENTON, N. J., Jan. 16.—There is good reason to believe that President-elect Wilson may appoint Colonel George W. Goethals governor-general of the Panama canal zone, and that if he does, the Senate will confirm the appointment. Governor Wilson announced yesterday that Colonel Goethals will call on him, but would say nothing further regarding the visit than that he wished to find out all he could about the canal work.

Choice of Taft  
President Taft named Colonel Goethals as governor-general of the canal zone to the Senate. He later withdrew the nomination after Senator Brandegee of Connecticut had informed him that the Senate would not confirm the appointment. The Democrats, so Brandegee was credited with telling the President, desired to obtain the patronage that might come with a change of administration in the zone. Declaring that the attempt to interject politics into the canal work was outrageous, the President declared that he would put the responsibility of the completion of the canal squarely up to the new administration by refusing to name anyone.

AGAINST MISCEGENATION  
COLUMBUS, O., Jan. 16.—Declaring himself disgusted with the recent conduct of Jack Johnson, the pugilist, Representative Reper of Ohio introduced a bill in the House to prohibit marriage or cohabitation between whites and negroes or Chinese in Ohio.

CELESTIAL CROP TURNING OUT BETTER THAN WEEK AGO WAS THOUGHT AT ALL PROBABLE

NEW YORK, Jan. 16.—The special board of inquiry at Ellis Island decided yesterday that Cipriano Castro, ex-president of Venezuela, must be excluded from entering the United States. Castro's attorneys immediately announced that the action of the local immigration authorities would be appealed to the department of commerce and labor.

# SOLONS BUSY IN INTRODUCING LAWS

Teachers' Pension Bill Would Reward Those Who Have Taught 20 Years

HANS WOULD STOP WIFE BEATERS FROM WEDLOCK

Wise Laws and Otherwise Pour In For Consideration of the Lawmakers

SACRAMENTO, Jan. 16.—The teachers' pension law with a minimum of \$500 and a maximum of \$1000 annually, was introduced in the legislature today by Senator Tyrrell. It provides for the creation of a public school teachers' retirement salary fund from inheritance taxes, to apply to all over sixty years who have taught for thirty years, giving one and five-tenths of the average salary for the last ten years of service. Provision is made for pensions after twenty years' service, if the applicant is incapacitated, the amount to be computed in the same way.

NO WEDDING BELLS A SECOND TIME FOR THE WIFE BEATER  
SACRAMENTO, Jan. 16.—Senator Hans introduced a bill forever prohibiting men who had been divorced on the charge of wife beating to remarry. The bill provides that a copy of such persons' decrees be sent to all the county clerks and that a court order prohibiting marriage be issued. A violation of the law is to constitute a felony. Despite the seriousness of the measure the senators guffawed when it was presented.

LOTTERY PENALTIES  
CAPITOL, SACRAMENTO, Jan. 16.—The publication of lottery results of advertisements and the sale of lottery tickets will be made a felony punishable by one year's imprisonment in a state penitentiary if a bill introduced in the legislature by Assemblyman T. D. Johnson is made a law. Johnson claims to have almost unanimous support guaranteed by his colleagues.

Additional Judges Plan  
Eight additional superior court judges for counties of the first class is the plan of Assemblyman Woodley of Los Angeles. His bills, which have been presented, would give the governor power to appoint such judges for a period expiring Jan. 1, 1915, their successors to be elected in November the previous year. Counties of the first class now are entitled to 12 superior court judges.

For Biological Institute  
A bill introduced by Assemblyman Judson of San Diego calls for an appropriation of \$24,000 for the construction of a wharf for the Scripps Biological Institute at La Jolla, San Diego county, recently turned over to the state. The appropriation is recommended by the State Board of Control.

Old Age Pensions  
Unusual attention is being paid today to a plan proposed by Assemblyman Farwell of Los Angeles, including the appointment by the governor of a committee of three to investigate old age pension systems and formulate recommendations for state aid for superannuated persons.

Solution of Free Text Book Tangle  
State Superintendent of Instruction Hyatt will pay freight charges on an order of 3,000 text books for use in Alameda county schools and take chances of reimbursement when legislative machinery gets into action. This is Hyatt's attempt at solution yesterday to the technicalities that heretofore have prevented distribution of needed books. The first installment was sent out Wednesday by State Printer Richardson under Hyatt's direction. It is expected that the railroad will hold the account against Hyatt pending the action of the legislature.

CASTRO MUST GO SAYS ELLIS BOARD  
NEW YORK, Jan. 16.—The special board of inquiry at Ellis Island decided yesterday that Cipriano Castro, ex-president of Venezuela, must be excluded from entering the United States. Castro's attorneys immediately announced that the action of the local immigration authorities would be appealed to the department of commerce and labor.

The order to deport Castro resulted from his refusal to answer questions as to charges that he had been connected with the assassination of General Peredes in Venezuela.

Spiced Currants  
Four quarts stemmed currants, two pounds granulated sugar, one pint vinegar, one teaspoon cinnamon, cloves and allspice.

# FINGERS BURNING OFF SAVED COTANT'S LIFE

Tustin's Deputy Assessor Had Narrow Escape This Morning When He Picked Up Live Wire

To the fact that two of his fingers burned partially off, A. L. Cotant of Tustin owes his life. He took hold of a live wire, fell and lay on the ground unconscious with an electric current passing through his body. When two fingers of his right hand were partially consumed, the connection was broken.

Squires, blacksmith at Tustin, was quite a way off from Cotant when he saw Cotant fall. Squires ran to the fallen man, but before he reached him the two fingers had been burned, the wire loosened and the current no longer passing through Cotant's body. Cotant was unconscious about five minutes.

Cotant, who is a field deputy for County Assessor Sleeper and a well known citizen and rancher of Tustin, lives at the corner of Glenn and First streets. In that vicinity yesterday evening a number of trees were blown down, and wires of the Southern California Edison Co. and two telephone companies were brought to the ground. The Edison company turned off its street circuit at Tustin last night, and it is not known from what source the juice came that was in the wire picked up by Cotant this morning. There were a number of wires on the ground, and it is thought a cross circuit at some other point had loaded the wire touched by Cotant with heavy voltage. The electrical men who arrived after the accident stated that it was the greatest wonder in the world that Cotant was not killed. No one knows how great the voltage was.

Cotant was helped into the house and a hurry call sent for Dr. Boyd, the family's physician. It was found that the worst burns were on Cotant's right hand. Two joints of the index finger were gone. The entire finger will have to be amputated. The little finger of the same hand was burned off to the first joint, and the remainder of the finger may be saved. The ball of the thumb was severely burned, but no part of the thumb will have to be taken off.

The other fingers of Cotant's right hand are severely burned. The palm of the hand was also badly burned. It is impossible to tell as yet what the result will be, as there is no way to determine how much of the flesh will resist the burn. There is a possibility that the hand will have to be amputated.

The burns on the left hand are on the back of the hand. The burns on the body are just below the ribs on the right side. There were some burns on the left hand, and a severe, deep burn on the chest. Cotant rallied from the shock in a wonderful manner, and after a time was out in his yard, but along toward noon he was again feeling the effects of shock.

Cotant stated today that he saw the wire on the ground, and thought he could stick a finger on it and see if it had juice in it, and if it was hot he could jerk his finger away. The shock, however, was such that he could not do as he had expected.

PROF. THADDEUS LOWE CLAIMED BY DEATH  
PASADENA, Jan. 16.—Prof. Thaddeus Lowe died at noon here, following an illness of several months. Prof. Lowe has been a conspicuous figure in California and the United States for many years.

Prof. Lowe was 82 years of age and had been helpless for a year, following an unfortunate fall. He was an aerial scout for the Union army during the civil war, and had an adventurous experience.

Prof. Lowe won fame as an inventor, his appliances including a compression machine for ice manufacture, and modern cold storage methods. He revolutionized gas-making methods, and made and lost fortunes in the development of his inventions.

AGUINALDO HEADS REVOLT LEADERS IN PEACE SOCIETY  
MANILA, Jan. 16.—Forty former leaders in the Philippine revolution have formed a national association under the leadership of Emilio Aguinaldo, to work for peace and to give mutual help during the period provided in the Jones bill, which aims at a provisional government in the Philippine Islands, with ultimate independence for the Filipinos.

Freak Wind Uprooted And Broke Few Trees  
Many trees were uprooted and others broken by the freak high wind that accompanied the rainfall of yesterday. The hardest wind came between 4 and 5 o'clock, and at that time Santa Ana got most of its rainfall for the storm.

The center of the hard wind seems to have been between Santa Ana and Tustin running north toward Orange. The wind was from the southwest. From trees being blown down many telephone lines were put out of commission and electric light circuits cut out.

In the vicinity of Lyon and Main streets, east of Lyon, a number of trees along the streets suffered damage. A big pine tree on Burge's place on Main street broke off above the ground. The row of poplars on East First received a smashing. Two or three walnut trees in the Harris and Smith orchards went down. The earth was soft with the rain, and probably for that reason those trees were easily uprooted.

# HOME RULE IS ABSORBING TOPIC

Intense Excitement Attending Closing Hours of Debate on Famous Measure

SPECTATORS CROWD TO HEAR SPIRITED DEBATE

Irish Bands Forbidden to Play; Vote Tonight—100 Majority For Bill Expected

LONDON, Jan. 16.—Although it was predicted the government would have a majority of one hundred on a straight party vote, the excitement was intense when the final stages of the home rule bill were entered on in the House of Commons. Following the usual baiting of ministers by the members, Speaker Lowther took the chair at 2:45 o'clock. The spectators' gallery was packed.

The entire day was filled with argument. A vote is expected at 10:30 tonight. Regarding the measure, Premier Asquith, among other leaders, said: "The bill gives the Irish people free and ample field for the development of their own national life. It will bind them to the British Empire by a sense of voluntary co-operation."

John W. Redmond, the Irish Nationalist, said: "I personally thank God I have lived to see the end of the wretched ill-will and suspicion between Ireland and the Empire. I believe it will in time turn Ireland into a happy and prosperous country."

Opposition to the bill is bitter, forecasting bloodshed in Ulster. The Balkan and Turkish peace envoys were guests of the House of Commons and occupied seats in the gallery. Many other notables were present. Hundreds of police guarded the approaches to prevent rioting. Irish bands stationed in Parliament Square were ordered not to play while the debate was in progress. The Irish Nationalists plan a demonstration tonight. Solicitor Sir John Simon opened the debate for the bill.

# STRINGS TIED TO HER SHARE

Miss Laughlin Gets Half of Vast Fortune But No Husband Must Control It

LOS ANGELES, Jan. 16.—The will of the late Homer Laughlin, probated today, gives his daughter, Gwendolyn Virginia, one half of his \$1,175,000 estate on the condition that "none of the daughter's share shall ever be subject to the control of any husband or any portion shall be used to pay a husband's debts."

Homer Laughlin, Jr. gets the other half of the estate. The deceased's sister, Mrs. Nancy West of Long Beach, gets an allowance of \$150 monthly.

GOV. COX OF OHIO ADVOCATES MANY PROGRESSIVE LAWS  
COLUMBUS, O., Jan. 16.—In his first message to the general assembly, delivered to that body Tuesday, Ohio's new governor, James M. Cox, strongly favored the direct election of United States senators, the short ballot, the establishment of long-term farm loans, the compulsory workmen's compensation, reduction in the hours of labor for working women and law based upon the recent amendment to the state's constitution to shorten legal procedure.

POSTMASTER AT FRENCH GULCH IS BEING SOUGHT FOR  
SACRAMENTO, Jan. 16.—Under the direction of Postal Inspector Hall, this city was being combed yesterday for William Shulford, 24, postmaster at French Gulch, Shasta county, following the discovery of an alleged shortage of more than \$3,400 in his accounts. Shulford was reported to have left French Gulch on a Southern Pacific train for Sacramento. The conductor of the train told officers who met it that a man answering Shulford's description left the train inside the Sacramento city limits.

## HONOLULU IS BEAUTY SPOT

No Race Suicide There; Foliage Species Many; Newsy Letter From Famous Sea City

P. A. Robinson, who came here not long ago from Wisconsin and became well known here as the builder of a beautiful residence for himself and several bungalows in the Washington street and Wellington avenue sections, lately went to Hawaii with a sister coming west from their home state. He will spend some months in the beautiful islands and has promised to send a few letters to the Register, the first of which appears below:

To the Editor of the Register:

I promised to send you a little write-up of Hawaii.

First, I will tell you a little of the voyage. We left San Francisco on

the evening of Dec. 24, and the very first night we ran into a storm which built up quite a swell and the boat rolled so that nearly all the passengers were sick. One of our party had a strange experience. There was some water in a water bottle at the head of their berth. The victim heard the water swishing in the bottle and imagined it was what the victim had eaten and drank at supper swishing in the victim's stomach. The sufferer was greatly relieved when the mistake was discovered. One's imagination can get one into trouble on sea as well as on land.

Josh Billings said "that there was one good thing about tight boots, they made one forget all their other troubles." The same can be said of sea sickness.

The third day we came to smooth waters, and for the balance of the way the sea was calm, and the air warm and balmy.

The Hawaiian Islands are farther south than I supposed. They are in the same latitude as Cuba. Sailing into Honolulu harbor at this time of the year, when there are rain clouds drifting over the mountains, and the sun shining on the hills in places, giving the landscape a different shade of green, while a rainbow added makes a scene that is unsurpassed, is an experience greatly worth while. The climate is ideal now. The rainy season has just set in, which makes the air a little moist and humid, different from our dry, cool air. We Californians think we have a great variety of foliage, but it is not to be compared with that here.

The season for making sugar has begun and will last until next September. There are over fifty companies incorporated which own sugar plantations and are in the industry. The population is three-fourths Japanese, Chinese and Hawaiian. The Hawaiians are great singers and they remind one of the negro singers. The government is spending millions improving Pearl Harbor and fortifying the island. There are three regiments being sent here, and the forts have all been enlarged to accommodate the troops.

The streets are full of children of all ages, and there is no indication of race suicide here. There is a fine modern Y. M. C. A. building here, erected at a cost of \$240,000. There are 200 young men and boys attending the night school. The beetles, flies and insects that have been brought in from the Orient have destroyed all the roses, and are doing great damage to the oranges and rice. California has quarantined against all raw fruits, shrubs and plants from Hawaii.

No more for this time.

P. A. ROBINSON.

**Could Shout For Joy**  
"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice, and to rid the system of kidney poisons that cause rheumatism, Electric Bitters have no superior. Try them. Every bottle is guaranteed to satisfy. Only 50 cents at all druggists.—Advertisement.

305 North Main St.  
Phones: Main 134, Home 138.

## FRANCHISE IS HANGING FIRE

Railroad Official Does Not Show Up To Discuss Proposed Change

Orange News: The Pacific Electric franchise got no reading at the meeting of the city council last evening, as there appeared to be "grease on the track" somewhere along the line and this important subject was again delayed.

President Dittmer explained that he had been in communication with Chief Engineer Pillsbury's office and

**"Just Say" HORLICK'S**  
It Means Original and Genuine Malted Milk  
The Food-drink for All Ages.

More healthful than Tea or Coffee. Ages with the weakest digestion. Delicious, invigorating and nutritious. Rich milk, malted grain, powder form.

A quick lunch prepared in a minute. Take no substitute. Ask for HORLICK'S. Others are imitations.

#### IT PAYS

to get your Auto repairing done right. If the work has been done by experts you know you can depend on it, and your worry at once ceases.

Why Not Call and Inspect our shop, our garage facilities, and our complete line of standard tires and accessories? It will pay you to get acquainted with our repair and supply service.

**CONGDON MOTOR CAR COMPANY.**

515 North Main St.

that it was stated that Mr. Pillsbury could not be present and objected to the amendments proposed by the board. These amendments are as follows:

1. Omit Section 2 and insert the following in its place: Section 2. "The tracks to be laid under said franchise shall not exceed four feet eight and one-half inches in width between the rails and shall be placed as near equidistant from the center of the street as possible, and where said road is double-tracked as near each other as proper regard for safety will allow."

2. Sec. 3 cancel the first 30 words and insert the following: "That the said grantee and its successors and assigns shall use in the construction of said road the best material, including a rail weighing not less than sixty (60) pounds per yard, such as is used on first-class railroads, which shall be satisfactory to the board of trustees of the city of Orange, and said rails shall be so laid as to be continually welded or otherwise fastened together."

3. Cancel paragraph 3 of Sec. 3 and insert following four paragraphs: "Provided, further, that at least ten through passenger trains or cars each way to and from Los Angeles, California, shall be run over the road constructed under this franchise, which will give the City of Orange service as early as 5:30 a. m. and as late as 11:30 every day, unless prevented by the elements, strikes or unavoidable causes."

Provided, further, that the cars upon said road shall not be allowed to stand upon said street intersections for a period longer than five minutes, nor at any time in such manner as to obstruct the use of said street by vehicles or pedestrians.

Provided, further, that the stopping of passenger cars or trains shall be regulated by ordinance.

Provided, further, that the poles carrying the electric power wire for said railway shall be placed inside the curbline not nearer than six inches of said curb, and not in the roadway."

4. In section 5 cancel the words "and the members of the Board of Trustees of said city."

The third amendment is the one which the trustees consider most important as providing for a stated service. The paragraph which it is intended to supplant specifies that the company must run one car each day over the street on which franchise is given, thus giving the company the option of running as few cars as desired by them.

Mr. Dittmer stated that it was up to Mr. Pillsbury to get further action on the franchise matter and that the latter would probably be heard from in a few days.

#### NEW SCHEDULE

Newport News: The Pacific Electric has entered into a compromise with the South Coast Improvement Association, whereby the present 45 minute service will be abolished and an hourly service substituted, with the provision that none of the Newport cars will make stops between Los Angeles and the Willows. The schedule will probably go into effect this month.

Why not a pair of glasses for Xmas? See Dr. Loerch, 116 East Fourth Street.

## ELECTED FOR THE TOWNSITE

Stanton Boosters Select Officers For the Ensuing Year; News Notes

STANTON, Jan. 16.—The first annual meeting of the stockholders of the Stanton City Improvement Company, owner of the townsites, was held Tuesday. Directors were elected to serve during the ensuing year as follows: Hon. P. A. Stanton, Hon. John N. Anderson, Otis Birch, F. C. Beecher, R. H. Myers, J. J. Prendergast and Dr. T. C. Myers.

The directors met immediately after the stockholders meeting and elected the following officers: Hon. P. A. Stanton, president; Dr. T. C. Myers, vice-president; F. C. Beecher, secretary and Gen. Manager; Orange County Trust and Savings Bank, treasurer. An aggressive policy for the ensuing year was decided upon. The report of the officers showed, that during its first year of existence several miles of street were graded and oiled, cement walks and curbs laid, a municipal water system installed, electricity, a telephone service, a postoffice, an up-to-date department store, a lumber yard, garage, machine shop, blacksmith shop, livery stable, newspaper and beet dumps all established. Projected enterprises include a bank, with safe deposit vaults, rural delivery, direct from Stanton, warehouses and a general farm implement store.

F. C. Beecher, general manager of the Townsite Company, has taken up his permanent residence here. He is remodeling the Kruger house, recently purchased.

Charles Reilly, the cement contractor has plans drawn for a modern 6-room bungalow, work upon which will begin in the near future.

A warehouse will be built at once, for the accommodation of stock-keeper Richardson, his present quarters being out-grown.

Flouring for grain and beets is under full headway and with late rains a most prosperous season is anticipated.

## CUSTOMS SHOWING FOR LOS ANGELES

Collections on Imports and Exports For Month Reached  
Su mo of \$66,878.63

LOS ANGELES, Jan. 16.—The large customs business of the Los Angeles district is shown by the report for December, 1912, issued yesterday by C. W. Pendleton, collector of customs. Collections for the month amounted to \$66,878.63; the imports were \$272,676, and the exports were \$387,4.

Canada ranked first as an importer, the goods received from that country totaling \$46,264; France was second, with \$40,704 in imports, Germany's being \$31,833.

Fertilizers were the principal import, \$40,494 worth being received.

During the month of December seven foreign ships entered the harbor and three cleared. There were forty-two coastwise vessels entering during the month, and eighteen clearing. Of vessels engaged in coastwise trade, not required to enter or clear, 10 arrived and 205 departed.

## BREAKS COLD IN FEW HOURS

First Dose of Pape's Cold Compound Relieves All Grippe Misery

After the first dose of "Pape's Cold Compound" you distinctly feel the cold breaking and all the disagreeable grippe symptoms leaving.

It is a positive fact that a dose of Pape's Cold Compound taken every two hours until three consecutive doses are taken will cure Grippe or break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly ends the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Take this wonderful Compound with the knowledge that there is nothing else in the world which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist can supply—it contains no quinine—be sure you get what you ask for—accept no substitute—belongs in every home. Tastes nice—acts gently.—Advertisement.

## RAN INTO SIDE OF MOVING STREET CAR

J. W. Temple, carrier on rural route No. 7, was bruised and cut about the head this morning when he collided with a Huntington Beach car crossing Sycamore street on Fourth. Temple was riding his bicycle on the wet pavement, and seemed to be unable to stop. He was taken to a physician's office, where it was found his injuries were superficial cuts, and he then walked home.

Among the Muskmug tribe of the Kameron, near Lake Chad, a German explorer reports that he has discovered an unexpected luxury. As the nights are very cold in that part, the beds are built like stone chimneys, and underneath a fire burns all night, keeping the sleeper warm.

## CRITICISM TAKEN CALMLY BY WILSON

Denies Speeches Indicate Change in Pre-Election Attitude; Panic Talk Amuses

PRINCETON, Jan. 16.—The reports of unsettled conditions in financial circles, as the result of President Wilson's two recent speeches, one in Chicago last Saturday and the other in Trenton on Monday, provoked a good deal of discussion in and about the state house yesterday. The president-elect had read the accounts printed in the morning newspapers, and while he treated the matter lightly, he declared that it amused him more than anything else, he permitted his secretary, Joseph P. Hummity, to issue a statement calling attention to the fact that the president-elect had not changed his attitude since election, and that he is merely saying now what he said then in his campaign speeches.

Senator-elect Ollie M. James of Kentucky, after a conference with the president-elect, declared that if anybody started a panic, the Democrats, being in control of congress, would appoint a committee of investigation and find out who was responsible for it. When this was reported to the president-elect he said:

"Then they could find out by the investigation whether I was responsible or not."

**WILL BE GREATEST YET**  
San Bernardino Orange Show to Have 50 per cent More Exhibitors than Ever Before.

SAN BERNARDINO, Jan. 16.—Practically every citrus fruit growing district in the state will participate in the third National Orange Show to be held in San Bernardino, February 17 to 22. Reservations for space have come from the Sacramento valley, which is just now making long strides toward becoming an extensive orange growing section, from several counties in the San Joaquin valley, where the citrus industry is long since past the experimental stage.

On addition, practically all sections of Southern California will be represented, San Diego, Santa Barbara, Los Angeles, Orange, Riverside and San Bernardino counties having taken large blocks of space.

The number of exhibitors will be fifty per cent greater than at any previous show, and the exhibit space available, almost double that of last year, will be none too large.

Each of the many communities will build a display characteristic of the district represented. A thousand and one contrivances and designs will be worked out with the golden fruit. In addition a great bank of fruit will border the entire interior of the great tent, giving the feature designs a setting in a frame of gold.

The whole is illumined with thousands upon thousands of vari-colored electric lights, while red, green and gold worked out in the decorations will blend into a fairland that cannot be produced by a display of any other kind of fruit.

## Real Estate Transfers

Wednesday, January 15, 1913  
Charles E. Ut et ux to Loula V. Riley—42.3 acres in lot 42, Irvine subdivision; \$10.

S. R. Mulford et ux to Lena R. Wehmeyer—West five acres of south half of southwest quarter of northeast section 23-4-10; \$300.

## MAMMOTH BEAR SKELETON FOUND

Prehistoric Remains Dug Up From Famous La Brea Ranch By L. A. Museum Head

Los Angeles Examiner: From the depths of the tar beds of the La Brea ranch, just west of this city, which have given the world of science such remarkable specimens of mammals of the pleistocene age, has come to light parts of a skeleton of a species of bear, larger and more massive than any bear now in existence, and which must have stood fully two feet higher than the great Grizzly.

The discovery of the rare ancient specimen was made yesterday by Frank S. Daggett, director of the Los Angeles County Museum, and his assistants from a mass of deposit dug out of the La Brea fields by workmen for the Southern California Academy of Sciences nearly two years ago.

This giant ancient bear must have stood fully five and a half feet when resting on all fours. The size and height of the animal is determined by the size of the shoulder bone. It is evident that when the pleistocene bear, which roamed the wilds of Southern California with giant sloths, and mastodons and saber-toothed tigers rose on his hind feet, he was of sufficient size as to put unwonted fear into the heart of the prehistoric hunter, armed with his flint spear.

The complete skeleton of the great bear has not been discovered, but the bones which are in the possession of the local museum evince the fact that it is entirely different from any species of the bears known today.

## GET A TEN CENT BOX OF CASCARETS

Keep Your Liver and Bowels Active and You Feel Bulky For Months

Put aside—just once—the Salts, Cathartic Pills, Castor Oils or purgative waters which merely force a passage through the bowels, but do not thoroughly cleanse, freshen and purify these drainage or alimentary organs, and have no effect whatever upon the liver and stomach.

Keep your inside organs pure and fresh with "Cascarets," which thoroughly cleanse the stomach, remove the undigested, sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the intestines and bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, coated tongue, Indigestion, Sour Stomach or Constipated bowels. Cascarets belong in every household. Children just love to take them.—Advertisement.

## AMUSEMENTS

"GOING SOME" TONIGHT  
Truth Has Been Told About Worth of Comedy

When the curtain goes up tonight at the Grand the many who will attend this first performance of "Going Some" will immediately realize that every statement that has been made in regard to the excellence of the production is true. Of course, we all realize that every show that comes to the local theater is said by advance announcements to be "the best, most perfect ever." Often when we see the performance itself we know that we have not been told the truth. No one will be disappointed at "Going Some." A mere glance at the sixteen names in the cast will assure all that for all around ability better people could not have been selected.

Most of the players are experienced in amateur work, and under the guidance of Herman Reuter, Paul Armstrong's farce-comedy will have a production that would be hard to beat anywhere in the country.

Remember that the sole purpose of "Going Some" is to make people laugh. To further this end every situation and every character in the play is conceived on humorous lines. Ludicrous situations, funny speeches and queer ideas, follow one another with such bewildering rapidity that one fairly loses one's breath laughing.

The second scene in the fourth act of the play, where all the characters are on the stage, has seldom been equaled for comedy. The race between Skinner the cook of the rival Centipede ranch, and Speed, the hope of the cowboys of the Flying Heart, is about to take place. Willie, the "tough" cowpuncher, acts as starter. Speed and Skinner make several false starts. Willie becomes disgusted. He says, "I'm going to shoot twice the next time; once in the air and the second time at the nearest foot runner." This thoroughly frightened Speed and the race starts. For excitement and life the events on the stage while the race is going on could not be improved upon.

No one will regret going to "Going Some." It is safe to say that every one who goes tonight will come away from the Grand with a good word for the play.

Remember that the curtain will rise at 8:15, sharp. The prices are 25, 35 and 50 cents. Seats may be had at Rowley Drug Company.

# PRICE INDUCEMENTS FOR CAREFUL PURSES

Our first price reductions are our best "Price Inducements"—because our customers now have the pick of good, clean stock. We want to clear out all of our winter goods; that's why we offer purse tempting price reductions. It will pay you to visit our store.

## Skirts Special \$2.00

A special clean-up in skirts of all kinds. We have left now mainly serges and panamas, and voiles, in pleated models. They come in a good range of colors and sizes, and will make splendid house skirts for the low price of \$2.90.

## 33-in. Half Silk Pongee, 25c yd.

A heavy, half silk, corded pongee, splendid for waists, shirts or dresses. We have two patterns left, in navy and cream. It was originally a 50c article. Sale price 25c yard.

## 40c Half Silk Novelties, 25c yd.

The odds and ends of our half silk novelties, small figures in black and white, blues, green, apricot, and pongee shades. Comes 27 inch, regular 35c and 40c goods, at special 25c yard.

## 27-in. French Flannels 35c yd.

These are real French Flannels, all wool, and come in light and dark shades. This line originally sold for 75c yard. We have a few patterns left to close out at 35c yard.

## \$1.00 Fancy Messalines, 75c yd.

A great value in silk Messaline, Jacquards, and silk serges. We have small neat patterns in the best shades for the season. These are regular \$1.00 goods priced now at 75c yard.

## Ladies' House Dresses, special 95c

A big line of \$1.25 to \$1.75 house dresses in prints and percales, neat patterns, trimmed in plain materials. There are a few wrappers in the lot. Your choice for 95c.

## Suits \$18.50

All of our best suits go at this price, including the famous "Wooltex" models. There are many stylish mixtures in this line selling originally for \$32.50.

## Suits \$12.90

Our medium priced winter suits, in heavy mixtures. There is a good range of staple colors. This is our regular line of fine tailored garments, values up to \$25.00.

## Suits \$9.50

If you are not particular as to style, here are some high quality suits of last season's cut which will make neat, serviceable apparel for little money.

## Dresses \$9.75

This lot includes wool dresses, and silk dresses, many styles and many colors. They are specially priced in this clean up at \$9.75.

## \$2.00 and \$2.25 Heavy Coatings, \$1.50 yd.

All wool, coating, 58 inches wide, in mixtures of browns, blues, and gray, all this season's material. Our regular \$2.00 and \$2.25 goods, a bargain at only \$1.50 yard.

## Corduroys on Sale. All New Goods

We have this season's corduroys in brown, navy, taupe, and green, 28 inches wide, our regular \$1.00 goods at 75c, and \$1.25 goods at \$1.00.

## \$1.00 Dress Goods at 50c yd.

A clean up in wool dress goods that are great values. We show plain materials, stripes and plaids, mainly in serges. There are blues, browns, reds, green, and tan, just the thing for school dresses, warm house dresses, or inexpensive skirts. Special 50c yard.

## Elastic Supporters, 25c

Of best quality elastic, covered with good satin ribbon in colors of pink, blue, lavender, black, white and red. They are round, with neat gilt clasps; can be used for garters or sleeve holders. Special 25c per pair.

## 35c to 50c Fancy Ribbons, 25c yd.

The last of our fancy holiday ribbons. There are stripes, plaids, and floral designs in good quality of all silk taffeta. All 35c, 40c and 50c qualities go at 25c yard.

# Rankin Dry Goods Co.

107 WEST FOURTH INC 410 NORTH MAIN

## TO DO PAVING ON GLASSSELL

Orange News: An order for bids on three additional blocks of paving on North Glasssell street was passed by the city council last evening, as a start-off for 1913 activities. The resolution covers the three blocks between Maple and Walnut avenues. An order for bids on 250 feet of curb between the same avenues was also made, bids to be submitted January 27th.

Further improvement was started by the adoption of a resolution to sewer Olive street from Palmyra to La Veta, and La Veta from Olive to Center street. The work is to be done under the district plan, and a map of the district was accepted. The sewer is to serve as outfall for a large section south of Palmyra and east of Olive.

## Filed Demand

A demand against the city for \$60 was filed by the Bond-Jones Water Company. The demand recited that the company had been prevented from removing 1500 feet of three inch casing from East Chapman avenue. The pipe at 7 cents per foot, figured at \$105, and subtracting the estimated cost of removing at \$45, left a balance of \$60.

The demand arose out of an order made by the trustees for laying of cast iron water mains beneath paving. The water company was given permission by the board to remove its casing, but when the company's workmen appeared to do so, Contractor Werdin, who had the paving contract on the street, refused to permit the removal unless the company would put up a \$250 cash bond to guarantee that the street would be left in as good shape as before being dug up.

The pipe has been abandoned in the street and the paving is being laid over it. The company holds the city responsible for its exclusion from the street and consequent inability to remove the pipe.

The demand was referred by the finance committee to the board, and by it denied.

A demand by the L. A. Paving Co. for \$94 for the use of its street roller was settled for \$84.60.

## Automatic Flagmen

A resolution directing that the Santa Fe place automatic flagmen at the crossings on La Veta, Palmyra and Chapman avenues and alarm bells at Walnut and Collins was

## to comply with this demand.

## Sewer Farm Affair

Blanks sent by the state board of health relating to the condition of the sewer farm and septic tank were referred to the engineer. The president of the board was empowered, by resolution, to apply to the state board for permission to continue to deposit sewage in the septic tank and the effluent on the sewer farm. A communication from the state board did not say definitely whether or not an inspector will be sent to look into the complaint of the West Orange residents that the septic tank and sewer farm is a nuisance.

## THE BOHEMIAN LIFE

Chicago Post: The Bohemian life is bounded on the north by beer, on the south by ham sandwiches, on the east by rehearsed impromptu specialties and on the west by the idea that everybody is having a devil of a time. There may be a substitution of boundaries in a restaurant where the ink is rosy and where the bread flies after dinner, but beer and ham may be accounted the standby.

There are two other essentials, the stein song and John Boyle O'Reilly's "Bohemia," both worthy, but with their naps worn off through long shacking to the beer and ham.

Having taken the foregoing inventory, the way to be a Bohemian is to try to be something that you are not and fail without knowing it yourself. This may sound complicated, but it is the simplest and clearest definition at hand. The assumption of being a Bohemian with the stage set, the beer and ham ready and the song and recitation in leash is as foolish as to get in between the shafts of a sleigh and think you are a horse.

If organized Bohemianism did not come under the head of modified slumming, nobody would pay any attention to it. The term holds out a glint of reckless unconventionality to the house-ridden. Those who pine for walls farther apart jump at the chance to get out. In a large company they are thrown in with a few who are more or less milky in the fiber, but as they are Bohemians their notions go.

## He Was Literary

"Colonel Brown seems to be very literary," remarked a visitor to the Brown household to the negro maid, glancing at a pile of magazines lying on the floor. "Yas, ma'am," replied the ebony-faced girl, "yas, ma'am, he shelly literary. He jes' nat'ally litbats things all over dis year house."

—Woman's Home Companion.

## BESSER'S TEAM IS WINNER OF MATCH

Last night the Alexandria Bowling Alleys were the scene of the first match game played here in many years. The opposing teams were the McBurnies, captained by Bill May, and the Bessers captained by Frank Besser. The latter were the victors.

The spectators' seats were filled to overflowing. The match was called at 8 p. m. with Scott and James as opposing starters.

There were no records broken or sensational high scores rolled. Scott Torrens was found to be the most consistent bowler, he being the one to come off with high average which was 167 2-3.

Frank Besser of the Bessertes came second in this line.

Scott, also of the Bessertes, came out of the battle with high score, his biggest effort being 183.

When the final counting was made it was found that Besser's team had won by 148 pins.

There will be another of these games Friday evening between the two clubs. The score:

BESSER—	Total	Avg.
Scott	440	146
Strange	447	149
Chandler	428	142
Cochran	410	137
Besser	476	158
Total	2201	
McBURNY—	Total	Avg.
James	280	126
McBurney	420	146
Beall	308	102
May	424	141
Torrens	602	167
Total	2033	

Official umpire—Dave McBurney; scorers—Ray Chandler, A. W. Raney; pin judge—F. H. Mitchell.

## Children and Candy

Dr. Roger H. Dennett, in the Woman's Home Companion, writes of "What Children Should Eat." Doctor Dennett is a well known New York specialist on the diseases of children. Following is what he says about children and candy:

"Children seem to crave sweets, but I am not one of those who believe that this craving is normal and should be catered to. More indigestion and ill health is caused among children by eating sweets than by any other one article of diet. Candy may, however, be allowed after the second year, once or twice a week, one or

## SHERIFF'S SALE

## Notice of Sale of Real Estate Under Execution

In the Superior Court of the County of Los Angeles, State of California. J. E. Branch, Plaintiff, vs. W. J. Kellum, Melissa H. Kellum, W. L. Dickerson, Defendants.

Under and by virtue of an Execution issued out of the Superior Court of the County of Los Angeles, State of California, wherein J. E. Branch, plaintiff, and W. J. Kellum, Melissa H. Kellum, W. L. Dickerson, defendants, under a Judgment rendered the 20th day of December, 1912, for the sum of Four Hundred thirty-eight and 53-100 Dollars, gold coin, besides costs and interest, and that the sum of \$153.75, with interest from the 6th day of January, 1913, is now (at the date of this writ) actually due on said Judgment.

I have this day levied upon all the right, title, claim and interest of said defendants (or either of them) in and to the following described real estate, to-wit:

All that certain real property situated in the Rancho Los Coyotes, County of Orange, State of California, described as follows:

Commencing at the southwest corner of Section Six (6), Township Four (4) South, Range Ten (10) West S. E. B. and M. and running thence north, along the section line 14-68 chains, thence east 13-61 chains, thence south 14-68 chains and thence west along the section line 13-61 chains to the place of beginning, estimated to contain 20 acres reserving therefrom for roads, railroads, and ditches, a strip of land 30 feet wide along adjoining and each side of the township and section lines and a strip of land 15 feet wide along adjoining and each side of the quarter section lines, also reserving the use and control of cienegas and natural lines of water if any, naturally upon, flowing across into or by said described tract and reserving the right of way for and to construct irrigation or drainage ditches through said tract to irrigate or drain adjacent land.

Notice is hereby given, that on Thursday, the 6th day of February, 1913, at 10 o'clock a. m. of said day, I will proceed to sell in front of the south court house door, in the city of Santa Ana, at public auction to the highest bidder for cash in gold coin of the United States, all the right, title, claim and interest of said defendants, (or either of them) of, in and to the above described property, or so much thereof as may be necessary to raise sufficient to satisfy said judgment with interest and costs.

Given under my hand this 16th day of January, 1913.

CHAS. E. RUDDOCK, Sheriff.

By GEO. C. LAW, Deputy.

LONG, HIGHT & HOODENPIL, Attorneys for Plaintiff.

**AS TO A "COAST-LINE" HIGHWAY**

Up in Santa Cruz county a situation with reference to the state highway route similar to the situation in this county has developed, and an editorial utterance of the Boulder Creek Echo contains food for thought, especially for our "Coast-line" boosters. The Echo says:

The citizens of Santa Cruz who went to Watsonville last Saturday to talk good roads did the only thing possible in getting behind Watsonville in further effort to have the main state highway pass through the apple metropolis. If the special committee arising from this meeting fails in its efforts, Watsonville and our county will be no worse off than now, and if it succeeds, it will be a big thing for the lower end of the county, especially. In our opinion this committee is up against an impossible task, a stone wall, so to speak. In the first place, the matter of location is not in the hands of Governor Johnson at all, but must be decided by the State Highway Commissioners, three men of ability and put in authority to use their best judgment and discretion in these matters. These men must look at the State Highway with two principal considerations always in view. First, to follow the law as laid down in the State Highway act, and, second, to locate the road within the law for the best interests of all the state. Local considerations or benefits can not be taken into account, but only the greatest good to all the people of all the state. This must be kept paramount at all times, and in all places. If the route from San Jose to Salinas, two county seats, via San Juan, is the most direct and practicable route between those two points, then the commissioners must locate it there. In fact they have no choice in the matter, and have probably put it there for this reason. Another item that must not be forgotten is that should Governor Johnson interfere to change the route to Watsonville, it would probably mean chaos in state highway location all up and down the state. Every town that has been missed would want the highway zigzagged to its doors. Even Boulder Creek, Ben Lomond and the State Park people might again ask to have the Los Gatos branch brought down Bear Creek and the San Lorenzo via Big Trees, and so forth, to Santa Cruz. Another consideration that no one, in justice to the state authorities can overlook, is the matter of expense. Every diversion of the State Highway from the most direct route north and south will increase its length. The problem from the beginning has been to make the eighteen million dollar fund go round, and we all know it is a serious one. Every mile added to a canyon road, like the Riverside drive, adds from \$12,000 to \$15,000 to the sum total of expense. Ten miles would mean from \$120,000 to \$150,000 more coin taken from the highway fund of the state. Can the state afford to do it, under the circumstances, is the question. We mention these things not to detract from the efforts of the Santa Cruz and Watsonville committees, but just to suggest that none of us should feel hurt or seriously disappointed if they finally fail in their mission to Sacramento. Always, as before stated, the commissioners can not consider local matters in locating this road. Fortunate are the towns that happen to be on the direct route and point the way from San Diego, by both coast and valley to Siskiyou.

**AUTOMOBILE LEGISLATION**

Proposed legislation to regulate and control automobile traffic is attracting attention, not only in California but everywhere.

"We are fundamentally to blame for the great number of automobile fatalities," says William Allen Johnston in the current issue of Collier's, "for the reason that we do not take the automobile seriously enough. With a million cars in the country—one to every hundred of population—this new but tremendous factor in traffic must have at once the attention it deserves.

"Reforms are demanded along the main line of uniform state legislation, city traffic regulations, licenses for drivers and sane signal laws.

"The signal situation," he says, "has been complicated and its development exceedingly interesting."

The public has shown some antagonism toward the evolution of the "squawker" or bulb-horn into the modern efficient signal because the latter seemed at first to voice the arrogance of the automobile instead of performing, as it does, a most important function of public safety.

laws demand an adequate signal and "adequate" does not mean the weak-toned, old-fashioned bulb-horn. The law should state this clearly.

"Chicago tackled the situation first with the aid of traffic officials and legal experts. It was realized that an adequate signal is a necessity and also that to be adequate it must be loud enough to be heard under all circumstances and all conditions of traffic, and it must give a harsh, abrupt note; one, in other words, that means business, that speaks seriously enough of the potential danger of an approaching car. The simple provision was added that the signal must not be used unnecessarily nor in any way except as a warning of danger."

St. Louis, Cincinnati, Los Angeles, Newark and Dallas, and a number of other cities have been quick to adopt this ordinance. It has been approved by the American Road Congress, the American Automobile Association and will undoubtedly become a general state law.

**SMOKE COSTS MILLIONS**

More than \$500,000,000 a year is done in damage to merchandise, defacement of buildings, tarnishing of metals, injury to human and plant life, increased cost of housekeeping and losses to manufacturers due to imperfect combustion of coal. In other words, in abating the smoke nuisance in the large cities this amount of money will be saved, as well as increasing the comfort and convenience of the residents. An important step in this direction has been taken in Pittsburgh, where the University of Pittsburgh has undertaken to call the matter to the attention of those interested in a series of papers published in the form of bulletins.

**Farm Has Tragic History**

A tragic history accompanies a Welsh farm near Swansea. The farm is known as "Talywanda." A man named David Davies, a farmer, thirty years old, committed suicide there, a few days ago, by cutting his throat. When found in a field, the body was almost beyond recognition, having been attacked by rats. No fewer than five inquests have been held by the coroner at the farm on bodies of members of the family during the past few years, and all met singular deaths. The father was killed by being run over by a cart which he was driving; the mother died suddenly; an elder brother was thrown off his horse and killed, and another brother hanged himself. A previous occupant of the farm, prior to the tenancy of the Davieses, also hanged himself.

**New Way of Preserving Eggs**

The Pathfinder: A new process of preserving eggs, in connection with cold storage, is being introduced in France. It has the advantage that the eggs can thus be kept perfectly fresh for an indefinite time and when taken out of storage they do not deteriorate rapidly as regular cold storage eggs do. In eggs ordinarily there is a certain amount of air inside the shell and dissolved in the substance of the egg. This air, if left in, will cause the eggs to decay to a certain extent no matter what method of preserving it is adopted.

The new system, therefore, first gets rid of the air by placing the eggs in a vacuum. After the air has been sucked out of the eggs through the porous shell, carbonic acid gas and nitrogen are forced back into the egg to take its place. These gases act as preservatives, by keeping out the oxygen. The eggs are then sealed up in tin cans, when they can be kept for any period, in a cool place, the same as canned fruit.

**The World's Death Rate**

The Christian Herald: Consumption is the most fatal disease; it is claimed that it carries off 200 out of every 100,000 of our population annually. Next comes pneumonia, with 195 out of that number; heart disease claims 135; diarrhoeal diseases, 90; kidney diseases, 88; apoplexy, 68; cancer, 62; old age, 55; bronchitis, 50; cholera infantum, 48; general debility, 45; inflammation of the brain and meninges, 42; diphtheria, 36, and typhoid, 35. The world's mortality is said to be seventy a minute, or 100,800 a day, or 36,702,000 a year.

**The Blanket Tree**

Blankets grow on trees in Ecuador, and while the idea of an all-wool, fresh from the forest, bed-covering might give insomnia and a backache to the child of civilization who likes to snuggle comfortably under several layers of down and wool, the natives find it all right, as in fact, it is.

When an Ecuador Indian wants a blanket he hunts up a demajagua tree and cuts from it a five or six foot section of the peculiarly soft, thick bark. This is dampened and beaten until the flexibility of the sheet is much increased. The rough, gray exterior is next peeled off, and the sheet dried in the sun. The result is a blanket, soft, light and fairly warm, of an attractive cream color. It may be rolled into a compact bundle without hurt, and with ordinary usage will last for several years.—Harper's Weekly.

**Fashion Whispers**  
All the narrowness of the skirt has been retained at the hem, and the fullness has been put in about midway its length.

Among the new sleeves is the kimono, cut without an armhole, full length and closely fitted to the arm below the elbow.

Dark voiles and chiffons, with handsome borders, woven and printed, will be a fashionable feature of the coming spring.

New and pretty handbags are of silk to match the new mantlet dolmans. They are embroidered in beads and ruffled with ribbon.

Many of the new buttons are very small. They are purely a matter of ornamentation, and are not expected to serve as fastenings.

There are a hundred variations of the kimono sleeves. Some are

**The People's Forum**

Brief communications will be published under this head, provided they be signed by the author, or the author's name be sent to the Editor as an evidence of good faith. However, the Editor shall be the sole judge as to the propriety of publishing any communication, and the Register assumes no responsibility for any views that may be expressed in this column.

**Suggestion to School Board**

Editor Register: The president of the Board of Education is reported to have said:

"At some future time there will have to be some more bonds voted for the auditorium and cafeteria. It will be up to the pupils who use the high school to urge their parents and friends to vote for those bonds so that they can have the cafeteria and auditorium."

I hope I will not be accused of "rushing in where angels fear to tread," when it is considered that I will be called on to pay \$15.00 for every \$1.00 that the author of the above statement will pay towards the \$200,000 already voted and the additional amount he is attempting to force this city to pay in the future for the high school plant, and \$1.50 for every \$1.00 that will be paid by the entire high school board combined.

I do not assume that the small amount of taxes I pay should entitle my personal opinion to very much consideration in the matter. At the same time I think the members of the Board of Education should hesitate before arbitrarily saddling on this city an indebtedness so little of which they will be called on to pay.

My opinion is that it is not "up to the pupils" to do anything more than to enjoy the excellent school privileges which the citizens of this city have arranged to provide for them; but it is up to the Board of Education to carry out the wishes of the voters of this city as expressed at the bond election, and build and equip a complete high school plant within the amount of bonds already voted—\$200,000.

It is assuming a great responsibility to use the whole \$200,000 for a bob-tailed plant of expensive buildings and expect to leave affairs in such a condition that the people will feel obliged to vote more bonds to complete it.

It is possible the president of the board is willing to assure the voters that additional bonds will not add anything to the taxes of the city.

Since he assured them that the voting of the \$200,000 would scarcely be noticeable in the taxes, and every taxpayer knows the result, already, with the cost of maintenance and operation yet to come, very little faith will be put in his ability as a statistician and they WILL NOT VOTE ANY MORE BONDS.

Many of the voters of the city hesitated before voting for the bonds, for reasons which have since become very apparent, and finally did so against their better judgment but will not be flim-flammed again.

Unless the plans are altered to provide for a complete plant (although somewhat reduced in size and magnificence) without the need of additional bonds, the necessary steps should be taken to compel such action.

What do the other 5,000 taxpayers and voters, outside of the Board of Education, think about it?

S. H. FINLEY.

**FIRST SON NOT ALWAYS BEST**

The first born son is not necessarily the smartest, according to history. Among famous men of genius who came along late in their families are Joseph David, Napoleon, Dickens, Lincoln, Washington, Cromwell, Tolstol, Daniel Webster, Franklin, Balzac, Tennyson, Chopin, Van Dyck and Rembrandt. The oldest son in the family is not necessarily the best. Being the oldest, of course, he will put on the most airs and be a family leader because of mere firstness, but the youngest boy may be the one whose name will become distinguished, or the one who will be the greatest comfort to his parents.—Gallipolis Tribune.

**Cup Cake**  
One cup butter, two cups sugar, five eggs, two and one-half cups flour.

**EDDIE RESIGNS**  
**AS PROSECUTOR**  
Legal Opinion Given That He Was Automatically Restored to Office by Acquittal

LOS ANGELES, Jan. 16.—Mayor Alexander announced today that he will accept the resignation tendered by City Prosecutor Eddie, becoming effective immediately. Acting Prosecutor Ray Nimmo will continue in office temporarily. Eddie's resignation was sent to the mayor at 9 o'clock last night. He called particular attention to the jury's verdict of acquittal in his recent trial on the charge of contributing to the delinquency of Mrs. Alice Phelps.

**Eddie Was Still in Office**  
LOS ANGELES, Jan. 16.—Guy Eddie's resignation from the position of city prosecutor was placed in the hands of Mayor Alexander at the latter's home by a messenger shortly after 9 o'clock last night.

The mayor said that he will accept the resignation, but refused to discuss the contents of the city prosecutor's message or to indicate who he will appoint to fill the vacant city prosecutorship.

That Mr. Eddie has been in full possession of the city prosecutor's position since last Saturday, untrammelled by the order of suspension which Mayor Alexander issued at his request October 21, last, was made certain by City Attorney John W. Shenk early yesterday in an opinion rendered to Mr. Eddie.

The city attorney said that Mr. Eddie's suspension from office, pending the trial of the charge of having contributed to the delinquency of a minor, had terminated automatically last Saturday with the return by the jury of the verdict, "Not guilty."

This opinion, according to Mr. Shenk, is based on section 9 of Article 2 of the city charter, which provides that the mayor, with the confirmation of the city council, may suspend any public official charged with misdemeanor in office, pending the trial.

**Reinstated By Acquittal**

Mr. Shenk holds that this form of suspension contemplates a set length of time—the length of the trial, and that the determination of the trial body, whether it be a judge or a jury, automatically acts on the suspension, either terminating it as in the case of an acquittal; or continuing it in effect, as in the case of a verdict of "guilty."

**PACIFIC COAST IS**  
**DIVORCE CENTER**

So Declares Divorce Expert; 70,000 Children Half Orphaned by Law In 1912

NEW YORK, Jan. 16.—More than 70,000 children, mostly under age of 9 years, were deprived of one or both parents by divorce in this country during the last year, according to figures with which the Rev. Francis A. Moody stirred members of the New York State Marriage and Divorce Commission at its meeting Tuesday.

"The Pacific coast," he said, "has been the greatest divorce center of the entire world. In the year 1912 alone there were granted in the United States over 100,000 divorces. In forty years 3,700,000 adults were separated by divorce, and more than five million persons were affected by these cases. Illinois alone provided 120,000 divorces; Pennsylvania, 55,760; California, 50,000, and New York 44,450. New York state, however, sent 18,169 of its couples into other states to procure divorces and there were probably many migratory cases that are not recorded in the total. At present 90 per cent of the cases go by default, with only one party represented."

Mr. Moody offered a resolution to organize a federal commission in this state to work for a uniform federal law governing marriage and divorce, which should be the central organization for all state commissions of this character.

**COURT CONVULSED**  
**WITH MERRIMENT**  
**IN DIVORCE CASE**

SAN FRANCISCO, Jan. 16.—Illustrating how her husband, Walter S. Williams, tried to carve her with his Revolutionary War sword, Mrs. Adelaide Williams sent the judge, bailiff and court attaches into an uproar of laughter today. The woman reciting her own experiences, became convulsed. The court roared unrestrained, Judge Murasky joining the others and wiping tears of mirth from his eyes. Mrs. Williams got her divorce.

A tourist from the east, visiting an old prospector in his lonely cabin in the hills, commented: "And yet you seem to be cheerful and happy." "Yes," replied the one of the pick and shovel. "I spent a week in Boston."

**WM. ROCKEFELLER**  
**TO TESTIFY, EDICT**  
Be Made Convenient For Oil Magnate

WASHINGTON, Jan. 16.—The Pujo investigating committee of the House has decided to insist on William Rockefeller submitting to an examination by the committee's counsel.

By a division of 7 to 1 the committee last evening voted to excuse Mr. Rockefeller from appearing before the full committee at its hearing in Washington, but to require him to give testimony at such time and place as later may be agreed on. This probably will be at Palm Beach. Chairman Pujo and Attorney Undermyer will conduct the examination.

This action of the committee followed the presentation before the committee of the views of Dr. Charles Richardson, a Washington throat specialist, who had been sent by the committee to Florida to examine Mr. Rockefeller.

WASHINGTON, Jan. 16.—Chairman Pujo of the committee announced today that William Rockefeller would not be examined before January 27. The committee adjourned until next Wednesday. Except for the Rockefeller testimony it will complete its work on January 24.

President George Reynolds of the Continental Commercial National Bank, Chicago, testified that his bank was capitalized for \$30,000,000, and that its deposits average \$181,000,000. It is the second largest bank in the country. He advised the committee that the concentration of power in Wall Street is detrimental to the masses, although he favored permitting bank directors to borrow from their own institutions.

Jacob Schiff, member of the firm of Kuhn, Loeb and Co., followed Reynolds. He described the big security issues wherein the Morgan company and others figured.

**DIG FOR TREASURE**  
**NEAR POMONA PARK**

Mysterious Couple Delve In Earth, Encouraged Perhaps By Old Tale of Success

POMONA, Jan. 16.—That there is a treasure buried in Pomona is the belief of two men who are endeavoring to uncover the golden horde. They slipped into town and quietly began to dig beneath an old oak tree near Ganesha park. They registered at a hotel as J. M. McNeil and Lester Dotson, Sacramento. The latter claims to be a miner. Both refuse to divulge the nature of their search.

When the curious are attracted to the scene, where a hole is dug to a depth of several feet and eight feet wide, the men don their coats and wander away.

Several tin cans have been removed from the hole, and rumor has it that they contained treasure. The fact that the men hurried to Pomona and began operations methodically has led to the belief that records may have been discovered at the state capitol which tell of hidden treasure here. It is a parallel case with one here twenty years ago in which buried treasure was actually found. At that time several men appeared and began to dig near an old oak tree in the cemetery and unearthed a quantity of gold. The tree is still standing and retains a peculiarly marked limb which marked the hiding place of the treasure.

## ECONOMICS SECTION

### Novel Features of Meeting Held at Artistic Hanson Home Yesterday Afternoon

The members of the second section of Household Economics met at the artistic home of Mrs. Harry Hanson yesterday afternoon. The committee assisting her comprised Mrs. I. Forgy and Misses Powers, Montgomery and Wells.

Those who braved the elements were sorry indeed that the absent members could not be with them to share the delightful afternoon; the first meeting of the new year.

Roll call was responded to with a description of many novel gifts received at Christmas, and several were on display. The subject for the afternoon was "Soups and Cooking for Invalids."

Miss Gertrude Montgomery read a most interesting paper on the subject followed by Mrs. I. Forgy with a very instructive article.

The hostesses served refreshments on individual trays most daintily appointed and the delicious Scandinavian chicken both with toasted bread sticks, celery and a dainty dessert, found willing consumers and elicited much praise for those who had made the afternoon so pleasant and instructive.

—O—  
**Economics Class**  
Third Home Economics Class will hold its meeting at the home of Mrs. J. E. Paul, 617 East Chestnut avenue, Friday, Jan. 17, at 2:30 p. m. Subject, "Shell Fish and Oysters."

**A Mighty Good Time**  
That's what the members of the First Methodist choir had, who attended rehearsal last night.

After an hour spent in singing, a lot of games and contests of various sorts were put in operation, and a merry time was had until the company was called to the banquet room. The tables were beautifully decorated and a dainty luncheon was heartily enjoyed.

All agreed that they had a fine time and felt very sorry for the few who were scared out by the little rain, and failed to come.

Much credit is due the committee in charge: Mrs. Coleman and the Misses Irvine, Gutzwiller and Williams.

—O—  
**Talked of Naturalists**  
The Literature Section of the Ebell Society met on Tuesday last at the home of Mrs. A. M. Shaw, 606 Parson street.

John O'Mountains and John O'Birds, the two great naturalists, were discussed, Mrs. Norton giving a sketch of the life of John Muir and Miss Talbot of the life of John Burroughs.

## EXCELLENT MEETING

### Congregational Women Braved Weather and Conjured Up Entertaining Program

Owing to the rain yesterday the attendance at the regular meeting of the Womens Missionary Society of the First Congregational Church, held at Mrs. I. W. Van Cleave's yesterday afternoon, was not largely attended. But the event proved an enjoyable one, well repaying the brave ones who had ventured forth. An informal and impromptu program took the place of the one that previously had been arranged, as many of those who were to take part in the latter were detained at home by either sickness or the inclement weather.

Miscellaneous articles from various sources were read and charming instrumental numbers were played by Mrs. Arnold Peek and Miss Carol Van Cleave. The program was supplemented by social chat and the serving of hot coffee and appetizing doughnuts which were enjoyed in the pretty parlors, doubly cheerful in contrast with the cloudy skies and falling rain outside.

—O—  
**Surprise for Miss Witt**  
In spite of the rainy weather the choir of the First Christian Church packed up their lunch baskets and went to the home of Miss Anna Witt on North Main street last night, very pleasantly surprising that young lady.

The evening passed all too quickly with music, games and conversation. During the evening refreshments were served. Just before leaving, Rev. Paul E. Wright, on behalf of the choir presented Miss Witt with a beautiful gold brooch, thanking her for her services which she has so faithfully and willingly given the choir.

—O—  
**Fraternal Aid**  
Installation and the annual banquet engaged the attention of the Fraternal Aiders last night, and an interesting evening was spent by those who were present. Naturally, the rainfall and threatened storm kept many away, who thereby missed a pleasant event.

Following the ceremonies of installation, the spread that had been prepared was served and a social hour kept all entertained. The new officers installed last night are:  
Past President—J. Wiley Harris.  
President—James Armstrong.  
Vice President—Mrs. Janie Edwards.  
Chaplain—Mrs. M. J. Eaton.  
Secretary—Mrs. Fannie M. Lacy.  
Treasurer—Frank Harris.  
Organist—Agnes Cullom.  
Outer Sentinel—May Zimmerman.  
Manager—Mrs. James.  
Organist—Emily West.

## Personals

Mrs. Geo. R. Hemstock today welcomed her friends, Mr. and Mrs. Wm. Finley of Nevada, Mo. The Finleys will remain here several months.

Miss Edith Hemstra of Birch street went to San Diego yesterday for a visit of several days to relatives living in that city.

Dr. Mabel Vance Tremaine spent the day in Los Angeles.

Miss Mamie Wall went to Los Angeles this morning to spend the day with her sister, Mrs. Elton Lang.

Mr. and Mrs. J. Frank Collin are expected to arrive tomorrow from Lodi, Wisconsin, for a visit of several months at the W. J. Wells home. Mr. Collin is Mrs. Wells' brother.

Bert Leiby, son of W. L. Leiby, has opened a first-class restaurant at 117 North Glassell street, Orange. Those who have dined with Bert say that he certainly does conduct a first-class place and the meals are fine. He also handles a line of candy.

Will Park leaves this afternoon for a short business trip to Imperial valley.

## HIS RIGHT SIDE IS PARTIALLY PARALYZED

Mr. S. Hill of 1202 North Main street was stricken last evening about 8:30 o'clock with paralysis of the right side from the hip down. This morning he is considerably better and Dr. Ball who is in attendance predicts that he will be on his feet again in a few days. Mr. Hill is nearly 70 years of age and ordinarily this would count against him. Probably his condition would be chargeable to too close application to business for the past 57 years.

—For \$2.50 only you can get a trimmed hat Friday and Saturday. Values \$5.00, \$7.50 and \$9.00. Mrs. F. B. Wilhelm, 509 North Main.

## DIED

**REED**—At the family residence in Garden Grove, Wednesday, Jan. 15, 1913. W. H. Reed, aged 82 years.

## CITY PURCHASES SITE FOR HALL

**Seventy-five Feet Frontage on North Spadra Will Be Improved**

Fullerton Tribune: A lot, 75 by 150 feet, on North Spadra, just north of the Christian church property, has been purchased by the city trustees from Stern & Goodman for a city hall site.

The consideration is reported at \$2500. The fire house and later on a new city hall will be erected there. The purchase is considered a good investment.

The room now used by the city in the Fullerton Improvement company building, when vacated by the city, be divided into offices, for which there is a good demand.

## Too Late to Classify

**FOR EXCHANGE**—60 acres of good alfalfa land with plenty of water, six room California house, barn, all fenced on a good county road, 1 1/2 miles from Hanford, county seat of Kings county. Would take small ranch home near Orange or Santa Ana in exchange. Price \$8000. Fernald & Weiss, Campbell Opera House Block, Orange.

**FOR SALE**—Team of good orchard mules, and harness. Guaranteed sound and gentle. Also some good real estate deals. Call and see me. R. O. Stearns, 211 East Fifth St. Home Feed Yard.

**A FEW EXCHANGES**—Two good ranches, not frozen—close to Orange, good soil—fine location. Take some trade, prefer Minnesota. 3 acres bearing oranges close to Orange, did not freeze. House, barn, tools, including crop on trees. Price \$5000. Will take house and lot in Santa Ana as part pay. 1 acre bearing orchards and lemons, 7 room modern house, good barn. Will take house and lot in Santa Ana. W. M. Whitney & Co., Orange, Cal. Phone 15R.

**FOR SALE**—\$2800—2 corners, 6 room house, 3 lots, 2-story barn Van Ness and Lime St., or sell barn separate. 516 Lime street.

**FOR EXCHANGE**—Thoroughly modern new bungalow for vacant lot. Sunset 230.

**FOR SALE**—Four year old standard bred saddle horse, for sale cheap, must be sold in next ten days. 421 East Seventeenth St.

**FOR SALE**—One 13-tooth goose-neck cultivator. Used only part of one season. 751W2.

**ROOMING HOUSE**—On a fine close in corner, very excellent location, offered at a very reasonable price. Or will exchange for an orange grove. Schooley & Schenck, 504 North Main. 970V.

**FOR SALE**—Good heavy work team and harness or would trade. What have you? Sunset 3242, Home 5671.

**GARAGE TO RENT**—12x15 ft., cement floor, electric lights. \$2.00 a month. Inquire at 433 East First St.

**FOR TRADE**—80 acres of A-1 clear land in Colorado, for lot in Santa Ana. Home 519. Sunset 522W.

**FOR RENT**—Large, sunny, furnished front room, with privilege of bath and sitting room. 1212 North Broadway. Phone 225W.

**FOR SALE**—A furnished house. A nice place for a family to make a good living. Present owner going away. C. Box 90, Register.

**FOR RENT**—House, six rooms, Holt avenue, Tustin, near packing house. Want party to board man, he to occupy one room. Free rent and \$10 per month.

## CHARLES WILKIN DIED AT LOMPOC

The following account of the death of Chas. Wilkin, for many years a resident of this city, is from the Lompoc Record of Jan. 16:

"Another of our old residents has been called to his reward. Charles Wilkin, a resident of this valley since 1881, answered the final call last Saturday afternoon, aged 76 years, 5 months and 23 days.

"Mr. Wilkin was actively engaged in the farming industry up to about three years ago, and was the head of one of our best known and highly respected families.

"The subject of this sketch was born in Orange county, New York, July 12, 1836. He was married to Laura Young, in Monroe, Wisconsin, June 6, 1858. There were six children born to them, three sons and three daughters, namely: Mrs. J. D. Black, Mrs. A. H. Dyer of Lompoc; Frank, now of Arizona, George and Edward of Lompoc, and Mrs. C. B. Husted of Santa Barbara.

"The funeral was held Monday afternoon at 2:30 from the M. E. church, Rev. D. C. Burnham and H. A. Morgan conducting the services, and notwithstanding the fact that it was a cold day, a large concourse of friends attended.

"The pall bearers were J. G. Bissinger, F. S. Lewis, J. Stambaw, J. D. McCabe, J. Loynachan and R. W. Smith."

## LEIHY TO PAY FOR BUMPING AN AUTO

ORANGE, Jan. 16.—Justice Fullerton today gave judgment for \$16.85 and costs in favor of J. F. Richards and against W. L. Leiby. Richards asked \$50 damages because Leiby's automobile collided with Richard's automobile, with the result that Richard's machine was damaged. W. M. Brown was attorney for the plaintiff and H. J. Forgy for the defendant.

## CLARENCE DARROW VENIRE

125 Talesmen Drawn For Second Darrow Trial—Week May be Needed

In Getting a Jury  
LOS ANGELES, Jan. 16.—A secret venire of 125 talesmen has been drawn by direction of Judge Willis from which the jurors to try Clarence Darrow will be selected. The process is somewhat similar to that followed when James B. McNamara was placed on trial in October, 1911.

The talesmen will be summoned by deputy sheriffs and each person is required to be present in the Superior Court next Monday morning to answer to his name. At that time excuses because of ill health and other disabilities will be heard.

Though Dist. Atty. Fredericks and several of his deputies are busy this week entertaining the visiting District Attorneys, the office force has completed the preliminary work in preparation for opening the trial. At least a week is expected to be consumed in selecting a jury.

## JURIST'S SUDDEN DEATH

Chief Justice Hall of Connecticut Supreme Court Expires at Hotel

**Dinner Tab**  
HARTFORD, Conn., Jan. 16.—Chief Justice Hall of the Supreme Court of Connecticut, a widely known jurist, dropped dead last night while seated with the other justices of the court at dinner in the Hubbell Hotel.

Chief Justice Hall succeeded the present governor, Simeon Baldwin, on the bench.

## MASONIC NOTICE

Called meeting of Santa Ana Lodge No. 241 F. and A. M., Friday, Jan. 17, for work in the Third Degree. By order of R. W. MEAD, W. M. G. A. WHIDDEN, Secretary.

## Foils A Foul Plot

When a shameful plot exists between liver and bowels to cause distress by refusing to act, take Dr. King's New Life Pills, and end such abuse of your system. They gently compel right action of stomach, liver and bowels, and restore your health and all good feelings. 25c at all druggists.—Advertisement.

## CZAR FERDINAND TAKEN SERIOUSLY BY THE POWERS

A calm observation of the effects of the Balkan war on the restless, suspicious "concert of Europe" leads to one illuminating conclusion. The map makers, national carpenters of the embassies, and the foreign ministries have at last decided to take seriously the man of the hour, Ferdinand, the czar of the Bulgarians. No longer do you hear references to the "Tsarvetti"—the title which Sir Frederick Burnand and London Punch gave Ferdinand of Sofia in 1908.

His pictures are seen everywhere now—the bright "alignon" eye; the sharp, Napoleonic nose; the firm mouth; thin lips and beard trimmed to a point. Ferdinand, the grandson of Louis Philippe of France, who was driven into exile by a quip and a partiality for curiosities in umbrellas that shocked the sensibilities of the fastidious Parisians. Necessarily a Bourbon, he is unlike the entire Bourbon line, inheriting the stern, businesslike qualities of his maternal ancestors. Many stories have been told of his growing power among the crowned heads. Most of them are untrue and unjust.

## Perplexed Parent

"Did you ever try to be a kind husband and an indulgent parent?" asked the man whose hair is thin in front.

"Why, sir," replied the hearty individual, "that should require no effort."

"No effort! Well I want to tell you that in my case it's a superhuman undertaking. My wife wants to smoke cigarettes, my daughter wants to marry a nobleman whose title has lapsed

## "MOVIES" TRUST IS NOW UNDER PROBE

Patents Involved In Case; Combination of Patents to Form Monopoly, Says U. S.

NEW YORK, Jan. 16.—The taking of testimony in the government suit against the Motion Picture Patents company and the General Film company, the so-called "movies trust," was started yesterday by Edward P. Grosvenor, special assistant to the attorney general, and Joseph R. Darling, special agent of the department of justice, before Special Examiner Edward Hacker in the Hotel Alhambra.

The case differs from many brought under the Sherman anti-trust law in that patents are involved. The government contends that the defendants formed a combination of patents for the purpose of monopolizing the moving picture art.

Harry N. Marvin, president of the Motion Picture Patents company and vice president of the Biograph company, was the first witness. His testimony brought out the fact that prior to the formation of the Motion Picture Patents company December 8, 1908, the Biograph company and the Edison licenses had been involved in bitter warfare, and that by the merging only of their patents was the warfare stopped.

## GIRL FRIENDS ARE PALL BEARERS FOR MURDERED BRIDE

SAN FRANCISCO, Jan. 16.—With six of her girl friends as pall bearers, the funeral of Minna Jadin, the beautiful society girl shot by her husband, Donald Jadin, was held today. Jadin, who also killed himself, was cremated and his ashes sent to Brooklyn.

## LUIS TERRAZAS IN AID OF THE OROZCO REVOLT

NEW ORLEANS, Jan. 16.—Alleged proof that Luis Terrazas, son of Gen. Luis Terrazas, the cattle king of Chihuahua, and Enrique Creel, former governor of Chihuahua, and at one time the Mexican ambassador to the United States, are the financial backers of the Orozquistas in the present revolution against Francisco Madero, is in the hands of John W. Barbrick, a United States secret service man who is the attaché of the senatorial committee investigating Mexican affairs, and his associates.

This alleged proof shows that the two noted Mexican leaders of the Cientifico party, of whom Gen. Diaz was the chief, made New Orleans the center of their operations, it is said, and that in the Orozco rebellion Senor Terrazas alone contributed \$65,000 to the purchase of arms, ammunition, machine guns and dynamite with its accessories through local agents.

Senator William Alden Smith, chairman of the investigation committee, sent a telegram to Barbrick today which authorized him to prosecute with vigor the charges against the suspects.

## YESTERDAY IN CONGRESS

WASHINGTON, Jan. 15.—The Senate devoted most of the day to consideration of the executive, legislative and judicial appropriation bill. Among the amendments agreed to was one appropriating money to continue the commerce court, which was adopted by a vote of 23 to 20. The House had made no provision for continuing the work of this court.

The Senate agreed in the morning hour by unanimous consent to set apart the legislative day of January 30 for a vote on the resolution reported from the judiciary committee, proposing a constitutional amendment limiting the term of the president to six years and making him ineligible for re-election.

Senator Nelson introduced a bill giving railway mail clerks fifteen days annual leave with pay.

Senator Cummins of Iowa has introduced a bill imposing a prohibitory tax on stock market transactions.

## TO MUSIC STUDENTS

Francis J. Haynes, 309 East Tenth street, will receive pupils in voice culture, song interpretation, sight singing, harmony, counterpoint and composition.

Will take a limited number of beginners or first year students on wind or stringed instruments.

Nearly 18 years experience teaching graduate course of voice and instruments in colleges, schools and conservatories. Phone Pacific 497J.

—Santa Ana Lodge No. 20, Fraternal Brotherhood. Installation of officers and banquet Friday night. Every member is cordially invited to be present.

H. A. HUNTINGTON, Pres.

## KRYPTOK SPECTACLES & EYEGLASSES

The only near-and-far glasses that can be universally worn without discomfort, and without that suggestively "old" appearance. Bifocals that look and wear like plain glasses, but give you perfect double service.

DR. WILCOX, OPTICIAN, Roper's Book Store.

## ANGEL CITY LED CITIES BUILDING

Was First In Number of Permits During December and Seventh In Values

CHICAGO, Jan. 16.—Los Angeles still leads the nation in the number of new buildings under construction.

This is the information in the current issue of Construction News, which shows the coast city first in the number of buildings planned for during the month of December, and seventh in the estimated cost of the buildings for which permits were issued. The permits show 1296 buildings planned, and the estimated cost is placed at \$2,270,680, an increase from 937 buildings at an estimated cost of \$1,431,525, or 59 per cent, in December, 1911.

These figures are compiled from reports from seventy-nine of the principal cities of the United States, and the general increase for all is 13 per cent. The figures show permits issued for a total of 13,827 buildings at an estimated cost of \$53,385,745, against 14,715 permits for buildings aggregating \$47,196,858 in cost for the same month in 1911. This is an increase of eighty-eight buildings and an increase of \$6,188,888 in estimated cost.

## LITTLE RHODY IS FIRST AT CAPITAL WITH ELECTOR VOTE

WASHINGTON, Jan. 16.—J. S. McCabe of Rhode Island won the quadrennial race to Washington with the electoral vote of his state Tuesday. At 9 a. m., when the office of the vice-president opened, Mr. McCabe was waiting. A short time later, H. M. London of Raleigh appeared with the vote of North Carolina. A late train robbed him of the honor of the first to arrive.

The electors in each state are required to send two sets of ballots, one by mail and one by messenger, the messenger receiving compensation at the rate of 25 cents a mile one way.

H. E. Devendorf, secretary of the late Vice-President Sherman, has become the official custodian of the electoral votes and will keep them under seal until the house and senate meet jointly February 12, to canvass the vote and declare President Wilson officially elected.

## SAN BERNARDINO NEEDS MORE SCHOOL BUILDINGS AT ONCE

SAN BERNARDINO, Jan. 16.—That the growth of the city has been rapid during the last year is evidenced by the demand for additional schools, the construction of which the board of education is considering.

F. W. Conrad, superintendent of schools, has reported to the board of education that it was impossible to properly care for the pupils in at least three schools, and that additions must be made at once.

Maker of Good Glasses.

## MAY FORM A NEW DISTRICT

Anaheim Board of Trade Suggests Necessity of Protection From Overflow

ANAHEIM, Jan. 16.—Directors of the Anaheim Board of Trade at a meeting last night approved the plan which has been proposed for the formation of a protection district as the best means of securing funds and having the work done which is necessary to prevent overflow of the Santa Ana river and consequent damage to property during seasons of heavy rainfall.

There has been considerable discussion of the necessity for this work in previous years, but no definite steps were taken heretofore to bring the matter to a head.

Orange bankers will arrange to purchase from the state a sufficient amount of highway bonds to build this county's portion of the state highway, according to report made to the Board of Trade by Director Charles Eysenbrod, who is also president of the Anaheim National Bank and a member of the committee having in charge the consideration of this plan. He states that most of the bankers look upon the plan with favor, and his own and other Anaheim banks are ready to take their share of the bonds.

Election of directors and other business, together with reports of the past year's work, and addresses by several distinguished speakers, will occur at the annual meeting of the Anaheim Board of Trade to be held January 21.

Harry C. Inskeep of Fullerton has been appointed local manager of the Sunset Telephone and Telegraph Company and will assume the position tomorrow. Earl Abbey, who has filled this position for a number of years, has resigned and will enter other business in this city.

## DUTIES DEMANDED ON U.S. RAW SUGAR

California and Middle West Argue For Beet Sugar Growers and Manufacturers

WASHINGTON, Jan. 16.—Demand for the continuance of the protective duties of raw sugar for the benefit of the beet sugar growers and manufacturers of the middle west and California provided the burden of the argument presented to the committee on ways and means at the second session yesterday.

The California wine industry was pictured as in a deplorable condition when the committee took up schedule H, wines, spirits and other beverages. William Culman, for the California Wine association, said the lowest wages paid in Southern California were double those paid abroad, and the American wines were infinitely superior to those of twenty years ago, but that the industry should be protected by taxing the imported wines as luxuries.

## LOTS OF BEAUTIFUL, GLOSSY HAIR—25 CENT "DANDERINE"

Hair coming out?—If dry, brittle, thin or your scalp itches and is full of dandruff—Use "Danderine."

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing.

## HOTELS FOR HEALTH OR PLEASURE RESORTS

LOST—RHEUMATISM AND STOMACH TROUBLES, FOUND—HEALTH AND HAPPINESS AT MURRIETA HOT SPRINGS, MURRIETA, CAL. America's finest sulphur and Mud Baths and Swimming Pool. Booklet at Information Bureau, or by writing, Fritz Guenther, Prop. H. Guenther, Manager.

## Hill's Corner

We started in last fall with the largest stock of corrugated iron that we ever carried, but the sales have been greater than expected and we have been compelled to buy at later and higher prices in order to meet the demands.

We are compelled to make a higher price than that made last fall, but we are now inside the Los Angeles price and we expect to supply all demands.

Our stock of STOVES and HARDWARE is equal to all demand.

We are making IRRIGATING PIPE and expect to keep at it.

For a "square deal all round"

SEE HILL & SON.

## FROST DOES NOT AFFECT APPLES

It Makes Them Better in Owens Valley

Recent weather conditions have proven that so far the apple is the most reliable crop in California—reliable because unaffected by frost. A certain amount of cool weather is necessary in apple culture—it hardens the wood, gives the trees the perfect rest in winter that they require, besides improving the flavor of the fruit.

Owens Valley, Inyo County, Cal., is one of the few locations where this climatic condition obtains, as well as other conditions that are necessary to successful apple and pear culture. Besides being a most healthful climate on account of its elevation of 4000 feet, Owens Valley is protected from winds and fog by mountains on either side. This protection, the absence of rainfall during the growing season, and the many days of bright sunshine, make Owens Valley the ideal apple country of the world—where apples are the firmest, largest and best flavored. The section is free from pests and blights, and the hot, dry winds so common in other sections. Its nearness to the great city of Los Angeles (250 miles) is a distinct advantage, assuring an easy market for such diversified crops as can be grown here—alfalfa, potatoes, corn, hogs, etc., for which the location is thoroughly adapted. Poultry ranches in the Valley are earning good incomes.

C. R. Thomas & Son, 229 Title Insurance Building, Los Angeles, are selling agents for large tracts of Owens Valley land, owned by the Owens Valley Improvement Company. All these lands are under an excellent irrigation system. Since the opening of the railroad, which is now one of the Southern Pacific's main trunk lines to the east, the demand for land in this valley has become brisk, and the many settlers have increased its value. Notwithstanding this, tracts of land of this company's holdings, which are the choicest in the valley, can be bought at surprisingly low prices, on easy terms. Send to Messrs. Thomas & Son for literature or further information, or see them in Los Angeles. Join their excursion which leaves Los Angeles February 4th.

## 400 DELEGATES AT MEET OF BAPTISTS

Yearly Convention Being Held at Pomona—Prominent Workers Present

POMONA, Jan. 16.—With 400 ministers and delegates representing about eighty-five churches in attendance, the second day of the Southern California Baptist Convention opened yesterday morning in the First Baptist Church. The day was divided into two sessions. The morning was given over to Sunday school work, while the afternoon gathering was devoted to the interests of the women of the church, closing with a religious hour by Rev. Carter Helm Jones. Both sessions were occupied almost entirely to addresses by men and women foremost in Baptist church work in the state. Officers were elected as follows for the Baptist Young People's Society of Southern California: President, J. D. Fox (re-elected), Los Angeles; vice presidents, C. O. Johnson of Los Angeles, R. B. White-side of Santa Ana, Harry Silke of Santa Barbara, and Rev. E. E. Ford, Southwestern (re-elected); recording secretary, Miss Frieda Cable, Los Angeles; corresponding secretary, Miss Grace Woolley, Los Angeles.

Foreign officers for the Baptist Women's Missionary Society of Southern California were also named. Mrs. Albert Hatcher of South Pasadena, being chosen president.

## VICE PRESIDENT ELECT AND WIFE ON WAY TO ARIZONA

CHICAGO, Jan. 16.—Vice President-elect Thomas Marshall and Mrs. Marshall stopped in Chicago yesterday on their way to Arizona, where they will visit friends.

The Vice President-elect purchased some hunting clothes as he expects to hunt while in the West. They departed last night.

## MUNICIPAL WELL HITS WATER STRATA

FULLERTON, Jan. 16.—While digging the first well the city trustees found three strata of water had been struck. The well is now down 355 feet and the drill is in gravel and boulders and a fine stratum of water bearing sand. The well will be drilled down into the clay about six feet. Well No. 2 is down 125 feet, and struck water at 105 feet. The wells are to supply water for the municipal system.

Arthur Osborne, local manager for the California Vegetable Union, and George Schneider, packing-house manager for the same concern, have gone carefully over the local cabbage district, consisting of about 2500 acres. They sent a report to headquarters in Los Angeles today that at least fifty per cent of the early cabbage crop will be a loss on account of the recent cold weather. Out of the total acreage of 2500 about 600 acres are of the early variety. There has been some rain here today and this will do much to save the early cabbage. Immediately after the cold snap it was not thought any part of the cabbage crop had advanced far enough to suffer.

M. L. Seale, state organizer for the K. of P. lodge, will organize a new lodge at Huntington Beach. This will make the third K. of P. lodge he has organized in this county, the other two being in Fullerton and Placentia.

Courage Ever in Demand  
"Not in clanging flights and desperate marches only is heroism to be looked for, but on every railway bridge and fireproof building that is going up today. On freight trains, on the decks of vessels, in cattle yards, on lumber rafts, among the firemen and the policemen, the demand for courage is incessant, and the supply never fails."—William James.

Mrs. Ada F. Chama, artist. Oil.

## IMPERIAL VALLEY, COTTON DICTATOR

Can Now Raise Own Seed and Guard Against Boll Weevil From Other Sources

IMPERIAL, Jan. 16.—Acting upon the request of the Imperial Valley Cotton Exchange, the Board of Supervisors of Imperial county has asked the State Commission of Horticulture to quarantine all cotton seed grown outside of the state of California, except that which is to be used by the government for experimental purposes.

This means that Imperial Valley has arrived at a stage where it can supply its own cotton seed and thus protect its growers against the boll weevil, which has proven such a detriment to the southern cotton fields.

Heretofore all cotton seed has been purchased outside of the state and has been rigidly inspected by the local horticultural commissioner, with the result that no boll weevil has yet shown up in Imperial Valley fields.

Commissioner Wilsie does not propose that all of this work shall have been done in vain and therefore he has urged the strict quarantine, which will be immediately enforced. More than 20,000 acres of cotton will be planted in Imperial Valley this season, half of which will be of the Durango, or American, variety, and the other half will be of the Texas short staple variety.

The amount produced per acre is about the same, but inasmuch as the Durango cotton sells for approximately 6 cents per pound more than does the short staple, it is expected that nearly all of the cotton will be of the Durango variety next season.

The local cotton is considered of a superior grade, so much so, in fact, that orders have already been received from abroad for seed grown in Imperial Valley, notably a large order from the Mexican government.

The average crop throughout the valley is slightly more than a bale to the acre, which, after paying all expenses and interest upon the investment (valuing the land at \$150 per acre) will net the growers nearly \$40 per acre.

The crop of 1913, estimated from a very conservative standpoint, should mean at least \$2,000,000 gross returns to the growers.

## SAVING Is All a Matter of Habit

It becomes second nature to save if you have started right. Then comes the question of keeping your savings. You need a safe, sound, strong institution. You can't afford to lose them after you save them. Your money is safe with us.

## PARCELS POST IS DISCUSSED

Merchants at Annual Meeting  
Urged to Use the  
New System

Public Market and Bargain Day  
Are Urged In Shaw's  
Address

The annual meeting of the Merchants & Manufacturers Association was held last night at the Armory. Following the report of Secretary N. A. Ulm, came the election of directors as follows: N. A. Ulm, R. M. Morrow, W. H. Spurgeon, Jr., E. A. White, R. E. Miles, E. E. Vincent, J. Reinhaus, A. H. Williams and George S. Smith.

The report of the secretary showed much excellent work accomplished by the association during the past year. After the business meeting, those present adjourned to the balcony of the Armory and were served with delicious refreshments by the Dragon.

Postmaster L. L. Shaw delivered a valuable address on the parcels post in its relation and opportunities to the merchants of Santa Ana. In his introduction the postmaster gave a word of caution about the penalty attached for putting ordinary stamps upon parcels post packages. There is no longer any fourth class mail, and packages that hitherto went by that class must now go with parcels post stamps. If the wrong kind of stamps are used the double penalty must be collected from the one receiving the mail.

Shaw explained the postage rates for parcels post. He said that the local rate is five cents for the first pound and one cent for each additional pound. Los Angeles stores undoubtedly will attempt to work all the rural routes of Southern California. The local merchants will have some advantage in the rate.

Shaw said that he thought it advisable for the Santa Ana merchants to advertise an appeal to the farmers on the rural routes from Santa Ana, which number seven, cover 175 miles and have an average of 150 families to the route. The idea would be to let the patrons of the rural routes know that an order sent in by a rural carrier one day would get the article ordered delivered the next day.

Shaw urged the establishment of a public market in Santa Ana where

farmers from over the country could come in and offer their vegetables, wood, etc., for sale. He also favored having a bargain day at least once a month. On that day the various merchants would offer bargains, and thus a large crowd from outside would be brought here.

There was considerable discussion of the points raised by Shaw, ending with a motion to instruct the secretary to prepare for the use of the merchants a list of those receiving mail on rural routes.

E. A. White wanted to know if the M. & M. would again undertake to have band concerts at Birch Park during the summer. The matter was referred to the new board. The matter of getting cluster lights on Fourth and Main streets was also referred to the new board.

John Beatty, president of the outgoing board of directors, presided last night.

### AT THE COURTHOUSE

## TWO CLAIMING THOSE BEANS

Harry Jessup Is Suing J. P. Skinner for Possession of  
125 Sacks of Limas

A dispute over the ownership of 125 sacks of lima beans in the Irvine warehouse has found its way into the superior court in an action brought by Harry Jessup against J. P. Skinner and the Irvine Co. Jessup says the beans are his, and Skinner says they belong to Skinner. And there you are. So the court must decide between them. Williams & Rutan are attorneys for the plaintiff. The 125 sacks of beans weigh 10,000 pounds and are worth \$529.42.

**Not Much Left**  
Public Administrator Winbiger has petitioned for letters of administration on the estate of Henry Hettiker, an old indigent who was burned with his shack west of Anaheim Friday evening. The estate consists of carpenter's tools worth \$5 and eighteen chickens worth \$7.50. F. C. Spencer is attorney for the petitioner.

**Trial Feb. 10**  
This morning Francisco Ortiz pleaded not guilty to a charge of murdering F. Hernandez at Huntington Beach last July, and his trial was set for Feb. 10, taking the place of a civil action set for that date. Ortiz will be defended by Attorney Green of Los Angeles.

**Drinking a Habit**  
Valentine Brown of Newport Beach is in jail on a charge of being habitually intemperate. He was brought here by the city marshal of Newport Beach. His hearing is set for tomorrow.

**Says It Was Gift**  
Mrs. Murieta E. Morris, defendant in the suit brought by John Bergan, testified that Bergan gave the money to her as a gift. Bergan is suing for \$3,000, that he says he loaned Mrs. Morris without receiving a note or any security.

**Estate Appraised**  
J. N. Anderson, T. B. Talbert and G. C. McCullison have appraised the estate of A. R. Kelsey at \$19,393.

**Marriage Licenses**  
Lewis White, 22, and Pearl Elizabeth Wilson, 18, both of Santa Ana; Stephen I. Serey, 21, and Belle Oyos, 22, both of Santa Ana.

### Drives Off A Terror

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In any attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr. King's New Discovery. "My husband believes it has kept him from having pneumonia three or four times," writes Mrs. George W. Place, Rawsonville, Vt. "and for coughs, colds and croup we have never found its equal." Guaranteed for all bronchial affections. Price 50 cts. and \$1.00. Trial bottle free at all druggists.—Advertisement.

## Studebaker

The men who founded the Studebaker organization looked out upon Opportunity with a determined ambition to deserve the conquest of the Long Road, and in sixty years of successful progress no obstacle ever has been permitted to check the "Forward!" purpose. The modern Studebaker Corporation, with the largest plants in the world, its great skilled manufacturing army, its vast national system to meet national needs, still holds to the watchword, "Eternal effort is the price of progress." The ideal of sustained improvement is demonstrated in Studebaker harness, wagons, carriages and automobiles.

## CASE IS HEAD OF BOOSTERS

Secretary's Report Shows  
Wonderful Progress Made  
During the Year

Old Board Finishes Its Work  
and Retires—New  
Board In

President—F. H. Case.  
First Vice President—J. D. Thomas.  
Second Vice President—H. J. Forgy.  
Treasurer—W. A. Zimmerman.  
Secretary—J. C. Metzgar.

Last evening at the Chamber of Commerce rooms the above officers were unanimously elected to serve for the ensuing year by the new board of directors of the Santa Ana Chamber of Commerce. The board is composed of the following: Geo. B. Shattuck, A. H. Lyons, F. H. Case, J. D. Thomas, H. J. Forgy, H. T. Rutherford, W. A. Zimmerman, E. L. Vegely and Fred Rafferty.

The members of the retiring board of directors were called to order to finish up the remaining matters of business and to listen to the secretary's annual report. Those of the old board present were: G. W. Miner, Jas. Sleeper, J. D. Thomas, L. L. Shaw, F. H. Case and E. L. Vegely; and those absent, J. R. Paine, W. A. Zimmerman and L. J. Carden.

Secretary Metzgar read his annual report, which was indeed a splendid one, and a credit to the Santa Ana Chamber.

The report was received and placed on file, and the secretary was congratulated by the board for such an excellent report.

A resolution of thanks to Mrs. Ada F. Champ for the beautiful oil painting of a portion of the Orange county coast at Laguna Beach, was read and unanimously adopted, and the secretary was instructed to spread a copy of the resolution upon the minutes and also to send a copy to Mrs. Champ. The resolution follows:

"Resolved, That the thanks of the Chamber of Commerce be heartily extended to Mrs. Ada F. Champ for the beautiful oil painting representing one of the picturesque scenes of the Orange county coast at Laguna Beach and that the same shall be preserved as one of the most valuable and attractive of the Chamber's exhibits."

Secretary Metzgar then read the financial report, which was, on F. H. Case's motion unanimously adopted. This concluded the business proceedings of the 1912 board of directors, and on L. L. Shaw's motion the board adjourned.

Immediately the new board took office with F. H. Case elected to the chair. W. A. Zimmerman and H. T. Rutherford were made accredited representatives of the Santa Ana Chamber to attend the monthly meetings of the Associated Chambers of Commerce.

The selection of the various committees was deferred to a future date, and on motion of J. D. Thomas the new board adjourned to meet on February 5.

The annual report of the board of directors follows:

Gentlemen:—The Chamber of Commerce enters its twenty-fifth year as a conservative force, standing for a wise municipal progress in the city of Santa Ana. The past year has been one of prosperity and progress, and a very busy season for the board of directors and the various committees who gave of their time and energy for the rebuilding of the city and county. Such organizations as this body affords has a distinct and large value to the citizen; it represents in its membership the influential, the progressive and the substantial men of the city. It has provided a common object for platform on which all can agree to meet, formulate and co-operate for the success of a purpose. Its history shows that it has been potential in advancing measures for public betterment both in municipal policy and civic progress.

In its councils it has had the benefit of the opinion of men who have had the good and welfare of the city and its business interests at heart, and through its committees such men have planned for the broadening out of the municipal life of the city; the advertising of its resources and the betterment of business conditions.

A brief reference to the more important achievements and activities of the year follows:

Since April 1, 1912, there has been distributed by mail and otherwise approximately 17,000 pieces of advertising literature, and some 15,000 postcards furnished by the different banks of the city.

Visitors to the exhibit average 1250 per month, exclusive of the Triangle Trolley Excursion, which brings from 1500 to 3000 people per month.

The exhibit has been increased and now includes 291 jars of processed fruits, nuts and vegetables and is said by experts to be the best individual exhibit in the state.

During the year, one hundred and eleven different people contributed to the exhibit, and it was materially added to by an abundance of cut flowers furnished by the ladies of the city.

The Chamber received the loan of a handsome collection of stuffed birds and animals, and was presented with a valuable oil painting from an artist of note.

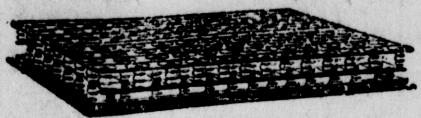

Advertising articles of Santa Ana and Orange county were published in eleven different magazines and pa-

# For A Good Nights Rest

## You Must Have A Comfortable Bed

Our mattress and bed spring department occupies a large section of our basement and is now very completely stocked with the best assortment of these goods ever shown in Santa Ana. Tier after tier of mattresses are stocked to the ceiling, while of springs there is an assortment that rivals most city stores.

Try a Dreamland Mattress and Steel Wire Coil Bed Spring For Thirty Days Free
